

Subject Area: Medicine - Radiology (General)

ISBN-13: 9781455712212

Pub Date: 01/11/2013

Weight: 4.54 grams

Pages: Approx 400 Pages

Illus: Approx. 300 illustrations

Size: 224 X 284 mm

Product Type: Expert Consult

List Price: €146.00

Imprint: Saunders

Clinical Interventional Oncology

Expert Consult - Online and Print

By **Stephen T Kee**, MD, Professor of Radiology, Chief, Interventional Radiology, UCLA Health Sciences, Los Angeles, California ; **David C Madoff**, MD, Professor of Radiology, Chief, Division of Interventional Radiology, New York-Presbyterian Hospital/Weill Cornell Medical Center, New York, New York and **Ravi Murthy**, MD, FACP, Professor of Radiology, Interventional Radiology Section, Division of Diagnostic Imaging, University of Texas, MD Anderson Cancer Center, Houston, Texas

Description:

Adhere to best practices and achieve best outcomes with ***Clinical Interventional Oncology!*** Loosely structured around the concept of a "tumor board," this groundbreaking oncology reference delivers a **comprehensive arsenal of information** on the techniques and treatment protocols surrounding chemoembolizations, tumor ablations, minimally invasive tumor biopsies, and other interventional oncologic procedures. Ideal for all members of the cancer care team, it provides the **"how to" guidance** you need on the clinical, evidence-based application of each interventional procedure.

Features:

- **Offer your patients the best care.** Evidence-based findings and practical tips equip you with the knowledge you need to recommend and implement the most effective cancer treatment options with your patients.
- **Master all image-guided interventional oncologic procedures** currently in practice for the interventional treatment of tumors and lesions in liver, lung, renal, pancreatic, brain, neck, colorectal, skin, prostate, bone, and soft tissue cancers.
- **Broaden your understanding and refine your skills** with comprehensive coverage of stents, venous and arterial ports, and interventional procedures for palliative care.
- **Quickly and easily find the information you need.** A templated, easy-to-reference format organized by organ system includes anatomy, biology, imaging principles, and procedures integrated throughout each chapter.
- **Experience clinical oncology scenarios with vivid clarity** through a full-color design complete with an abundance of high-quality anatomic and multimodality images.
- **Access the fully searchable text** and **over 800 images** online with **Expert Consult**.

Table Of Contents:

The Role of Interventional Oncology in Modern Cancer Care

Philosophy of Locoregional Therapies

Part 1. Principles of Locoregional Therapy

1. Principles of Embolization
2. Principles of Percutaneous Ablative Therapies
3. Principles of Isolated Regional Perfusion
4. Principles of Radiotherapy
5. Tumor Response for Image-Guided Interventions: Assessment and Validation

6. Trends in Basic Science Research in Interventional Radiology: Nanotechnology, Stem Cell, RNAi and Radiogenomics

Part 2. Gastrointestinal Oncology

7. Surgical Management of Hepatocellular Carcinoma
8. Interventional Management of Hepatocellular Carcinoma
9. Systemic Therapy in Advanced Hepatocellular Carcinoma
10. Cholangiocarcinoma: Diagnosis, Management and Prognosis
11. Percutaneous Management of Cholangiocarcinoma
12. The Multidisciplinary Management of Liver Metastases in Colorectal Cancer
13. Surgical Management of Hepatic Metastases
14. Interventional Management of Colorectal Liver Metastases
15. Gastroenteropancreatic Neuroendocrine Tumors
16. Interventional Oncology Management of Noncolorectal and Nonneuroendocrine Hepatic Metastatic Disease

Part 3. Genitourinary and Gynecologic Oncology

17. Percutaneous Management of Renal Tumors
18. Interventional Strategies in the Treatment of Gynecologic Cancers
19. Image-Based Interventional Therapies for Benign Uterine Neoplasms
20. Prostate Cancer Intervention

Part 4. Head and Neck Oncology

21. Imaging of Head and Neck Cancer
22. Transcatheter Chemotherapy for Malignancies in the Brain, Head, and Neck
23. Head: Intracranial - Gliomas, and Meningiomas and Extracranial - Orbits, Internal Auditory Canals, and Skull Base

Part 5. Thoracic Oncology

24. Primary Lung Carcinoma
25. Metastatic Lung Cancer

Part 6. Musculoskeletal Oncology

26. Percutaneous Musculoskeletal Biopsy
27. Musculoskeletal Interventions for Benign Bone Lesions
28. Ablation of Musculoskeletal Metastatic Lesions Including Cementoplasty

29. Vertebroplasty and Kyphoplasty in Malignant Vertebral Fracture

29. Intraarterial Procedures for the Musculoskeletal System
