

Subject Area: Medicine - Radiology (General)

ISBN-13: 9781455705962

Pub Date: 28/08/2013

Weight: 4,118.62 grams

Pages: 1344

Illus: Approx. 2690 illustrations (690 in full color)

Size: 216 X 276 mm

Product Type: Expert Consult

List Price: €238.00

Prior ISBN-13: 9781416029649

Prior ISBN-10: 1416029648

Imprint: Saunders

Image-Guided Interventions, 2nd Edition

Expert Radiology Series (Expert Consult - Online and Print)

By **Matthew A. Mauro**, MD, FACR, The Ernest H. Wood Distinguished Professor of Radiology and Surgery; Chairman, Department of Radiology, University of North Carolina School of Medicine, Chapel Hill, North Carolina; **Kieran P.J. Murphy**, MB, FRCPC, FSIR, Professor of Radiology, Joint Department of Medical Imaging, University Health Network, Mount Sinai Hospital; Women's College Hospital, Toronto, Ontario, Canada ; **Kenneth R. Thomson**, MD, FRANZCR, Professor of Radiology, Monash University Faculty of Medicine, Nursing, and Health Sciences; Director, Radiology Department, Alfred Hospital, Melbourne, Victoria, Australia ; **Anthony C. Venbrux**, MD, Director, Cardiovascular and Interventional Radiology, George Washington University School of Medicine and Health Sciences, Washington, DC and **Robert A. Morgan**, MBChB, MRCP, FRCR, EBIR, Consultant, Vascular and Interventional Radiologist, Radiology Department, St. George's NHS Trust, London, United Kingdom

Description:

Image-Guided Interventions, a title in the **Expert Radiology Series**, brings you in-depth and advanced guidance on all of today's imaging and procedural techniques. Whether you are a seasoned interventionalist or trainee, this single-volume medical reference book offers the up-to-the-minute therapeutic methods necessary to help you **formulate the best treatment strategies for your patients**. The combined knowledge of radiology experts from around the globe provides a broad range of treatment options and perspectives, **equipping you to avoid complications and put today's best approaches to work in your practice**.

Features:

- **Formulate the best treatment plans for your patients** with step-by-step instructions on important therapeutic radiology techniques, as well as discussions on equipment, contrast agents, pharmacologic agents, antiplatelet agents, and protocols.
- **Make effective clinical decisions** with the help of detailed protocols, classic signs, algorithms, and SIR guidelines.

New To This Edition:

- **Make optimal use of the latest interventional radiology techniques** with new chapters covering ablation involving microwave and irreversible electroporation; aortic endografts with fenestrated grafts and branch fenestrations; thoracic endografting (TEVAR); catheter-based cancer therapies involving drug-eluting beads; sacroiliac joint injections; bipedal lymphangiography; pediatric gastrostomy and gastrojejunostomy; and peripartum hemorrhage.
- **Know what to look for and how to proceed** with the aid of over 2,650 state-of-the-art images demonstrating interventional procedures, in addition to full-color illustrations emphasizing key anatomical structures and landmarks.
- **Quickly reference the information you need** through a functional organization highlighting indications and contraindications for interventional procedures, as well as tables listing the materials and instruments required for each.
- **Access the fully searchable contents, online-only material, and all of the images online at Expert Consult.**

Table Of Contents:

Part I: Vascular Interventions

Section 1: History of Angiography and Intervention

1. A Brief History of Image-Guided Therapy

Section 2: Vascular Diagnosis

2. Noninvasive Vascular Diagnosis
3. Invasive Vascular Diagnosis

Section 3: Instruments of Intervention

4. Diagnostic Catheters and Guidewires
5. Balloon Catheters
6. Stents
7. Thrombectomy Devices
8. Embolic Protection Devices
9. Atherectomy Devices
10. Embolization Agents
11. Aortic Stent-Grafts
12. Inferior Vena Cava Filters
13. Endovascular Laser Therapy
14. Intellectual Property Management

Section 4: Patient Care

15. Clinical Vascular Examination
16. Treatment of Medical Emergencies
17. Radiation Safety and Protection in the Interventional Fluoroscopy Environment
18. Management of Risk Factors for Peripheral Artery Disease

Pharmacologic Agents in Intervention

19. Principles of Intraprocedural Analgesics and Sedatives
20. Contrast Agents
21. Principles of Thrombolytic Agents
22. Antiplatelet Agents & Anticoagulants
23. Vasoactive Agents
24. Antibiotic Prophylaxis in Interventional Radiology

Section 5: Principles of Vascular Intervention

- 25. Angioplasty
- 26. Restenosis
- 27. Principles of Arterial Access
- 28. Closure Devices
- 29. Principles of Venous Access

Section 6: Peripheral Arterial Intervention

- 30. Vascular Anatomy of the Upper Extremity
- 31. Anatomy of the Lower Limb

Acute Occlusive Disease

- 32. Acute Arterial Occlusive Disease of the Upper Extremity
- 33. Acute Lower Extremity Ischemia

Chronic Occlusive Disease

- 34. Chronic Upper Extremity Ischemia and Revascularization
- 35. Aortoiliac Revascularization
- 36. Endovascular Management of Chronic Femoropopliteal Disease
- 37. Infrapopliteal Revascularization
- 38. Subintimal Angioplasty
- 39. Management of Extremity Vascular Trauma
- 40. Management of Postcatheterization Pseudoaneurysms
- 41. Endovascular Treatment of Peripheral Aneurysms
- 42. Management of Vascular Arteritides

Section 7: Vascular Malformations

- 43. Congenital Vascular Anomalies: Classification and Terminology
- 44. Management of Low-Flow Vascular Malformations
- 45. Management of High-Flow Vascular Anomalies

Section 8: Abdominal Vascular Intervention

Abdominal Aorta

- 46. Abdominal Aorta and the Inferior Vena Cava
- 47. Aortic Endografting
- 48. Fenestrated Stent-Grafting of Juxtarenal Aortic Aneurysms
- 49. Management of Thoracoabdominal Aneurysms by Branched

Endograft Technology

50. Endoleaks: Classification, Diagnosis, and Treatment

51. Endovascular Treatment of Dissection of the Aorta and Its Branches

Gastrointestinal Tract

52. Alimentary Tract Vasculature

53. Management of Upper Gastrointestinal Hemorrhage

54. Management of Lower Gastrointestinal Bleeding

55. Acute Mesenteric Ischemia

56. Chronic Mesenteric Ischemia

Kidney

57. Renal Vasculature

58. Renovascular Interventions

59. Acute Renal Ischemia

60. Renal Artery Embolization

61. Management of Renal Angiomyolipoma

62. Transvenous Renal Biopsy

Liver and Spleen

63. Transjugular Liver Biopsy

64. Chemoembolization for Hepatocellular Carcinoma

65. Radioembolization for Hepatocellular Carcinoma

66. Embolotherapy for the Management of Liver Malignancies Other Than Hepatocellular Carcinoma

67. Radioembolization of Liver Metastases

68. Bland Embolization for Hepatic Malignancies

69. Portal Vein Embolization

70. Vascular Interventions in the Liver Transplant Patient

71. Management of Trauma to the Liver and Spleen

72. Splenic Embolization in Nontraumatized Patients

73. Management of Visceral Aneurysms

74. Intraarterial Ports for Chemotherapy

Section 9: Pelvic Vascular Intervention

75. Vascular Anatomy of the Pelvis
76. Uterine Fibroid Embolization
77. Peripartum Hemorrhage
78. Management of Pelvic Hemorrhage in Trauma
79. Management of the Male Varicocele
80. Management of the Female Venous Congestion Syndrome
81. Treatment of High-Flow Priapism and Erectile Dysfunction

Section 10: Thoracic Vascular Intervention

82. Vascular Anatomy of the Thorax, Including the Heart
83. Thoracic Aortic Stent-Grafting and Management of Traumatic Thoracic Aortic Lesions
84. Bronchial Artery Embolization
85. Pulmonary Arteriovenous Malformations: Diagnosis and Management
86. Percutaneous Interventions for Acute Pulmonary Embolism

Section 11: Neurovascular and Head and Neck Intervention

87. Craniocervical Vascular Anatomy
88. Arterial Anatomy of the Spine and Spinal Cord
89. Use of Skull Views in Visualization of Cerebral Vascular Anatomy
90. Cerebral Functional Anatomy and Rapid Neurologic Examination
91. Carotid Revascularization
92. Acute Stroke Management
93. Endovascular Management of Chronic Cerebral Ischemia
94. Management of Head and Neck Tumors
95. Endovascular Management of Epistaxis
96. Subarachnoid Hemorrhage
97. Management of Head and Neck Injuries
98. Cervical Artery Dissection

Section 12: Venous Intervention

99. Superior Vena Cava Occlusive Disease
100. Percutaneous Management of Chronic Lower Extremity Venous Occlusive Disease
101. Acute Lower Extremity Deep Venous Thrombosis

102. Acute Upper Extremity Deep Venous Thrombosis

103. Portal-Mesenteric Venous Thrombosis

104. Caval Filtration

105. Ambulatory Phlebectomy

106. Great Saphenous Vein Ablation

107. Foreign Body Retrieval

Section 13: Venous Sampling for Endocrine Disease

108. Renal Vein Renin Sampling

109. Adrenal Venous Sampling

110. Parathyroid Venous Sampling

111. Arteriography and Arterial Stimulation with Venous Sampling for Localizing Pancreatic Endocrine Tumors

Section 14: Intervention in Portal Hypertension

112. Transjugular Intrahepatic Portosystemic Shunts

113. Retrograde Balloon Occlusion Variceal Ablation

Section 15: Hemodialysis Access Management

114. Surveillance of Hemodialysis Access

115. Management of Failing Hemodialysis Access

116. Management of the Clotted Hemodialysis Access Graft

117. Percutaneous Management of Thrombosis in Native Hemodialysis Shunts

Section 16: Venous Access

118. Peripherally Inserted Central Catheters and Nontunneled Central Venous Catheters

119. Tunneled Central Venous Catheters

120. Subcutaneous Ports

121. Hemodialysis Access: Catheters and Ports

122. Clinical Manifestations of Lymphatic Disease

123. Bipedal Lymphangiography

124. Thoracic Duct Embolization for Postoperative Chylothorax

Part II: Nonvascular Interventions

Section 17: Percutaneous Biopsy and Drainage

125. Biopsy Devices

126. Percutaneous Biopsy

127. Percutaneous Abscess Drainage Within the Abdomen and Pelvis

128. Management of Fluid Collections in Acute Pancreatitis

Section 18: The Gastrointestinal Tract

129. Esophageal Intervention in Malignant and Benign Esophageal Disease

Gastrointestinal Stenting

130. Intervention for Gastric Outlet and Duodenal Obstruction

131. Preoperative and Palliative Colonic Stenting

132. Gastrostomy and Gastrojejunostomy

133. Pediatric Gastrostomy and Gastrojejunostomy

Section 19: The Biliary Tract

134. Management of Malignant Biliary Tract Obstruction

135. Management of Benign Biliary Strictures

136. Management of Biliary Leaks

137. Percutaneous Cholecystostomy

138. Management of Biliary Calculi

139. Biliary Complications Associated with Liver Transplantation

Section 20: General Considerations in Energy-Based Ablation

140. Image-Guided Thermal Tumor Ablation: Basic Science and Combination Therapies

Section 21: The Liver

141. Energy-Based Ablation of Hepatocellular Cancer

142. Energy-Based Ablation of Other Liver Lesions

143. Cryoablation of Liver Tumors

144. Chemical Ablation of Liver Lesions

Section 22: The Genitourinary Tract

145. Urodynamics

146. Percutaneous Nephrostomy, Cystostomy and Nephroureteral Stenting

147. Renal and Perirenal Fluid Collection Drainage

148. Thermal Ablation of Renal Cell Carcinoma

149. Magnetic Resonance-Guided Focused Ultrasound Treatment of Uterine Leiomyomas

150. Fallopian Tube Interventions

Section 23: The Thorax

151. Thermal Ablation of the Adrenal Gland

152. Percutaneous Biopsy of the Lung, Mediastinum, and Pleura

153. Treatment of Effusions and Abscesses

154. Lung Ablation

155. Minimally-Invasive Image-Guided Breast Biopsy and Ablation

156. Tracheobronchial Interventions

Section 24: The Musculoskeletal System

157. Image-Guided Percutaneous Biopsy of Musculoskeletal Lesions

158. Ablation and Combination Treatments of Bony Lesions

159. Vertebroplasty and Kyphoplasty

160. New Directions in Bone Materials

161. Percutaneous Disk Interventions

162. Chemical and Thermal Ablation of Desmoid Tumors

Section 25: Percutaneous Pain Management

163. Selective Nerve Root Block

164. Stellate Ganglion Block

165. Facet Joint Injection

166. Sacroiliac Joint Injections

167. Periradicular Therapy

168. Epidural Steroid Injection

169. Image-Guided Intervention for Symptomatic Tarlov Cysts

170. Scalene Blocks & Their Role in Thoracic Outlet Syndrome
